When Covid started I thought that I would get bored at home...But then our school started doing online classes...They are so much fun...I thought that I would not understand subjects

like Maths as the interaction would be less but I was wrong...The interaction is very good...In Maths I am understanding each and every concept very well and I would like to thank my Maths teacher Shalini Ma'am for this....

Thank you Shalini Ma'am...

And also don't worry we will get through Covid together...

Have a nice day :)

Yes... we will get through this. – SHALINI CHAUHAN

Thankyou :) – SHALINI CHAUHAN

Math is the best from kanav sharma

Math is my strongest subject and I also i can do very well work for this all help I would like to say math easy to understand and everyone should work hard to get better marks marks does not really matter what matters is you studied hard and did well everyone improve everyday. From kanav sharma stage 7

Happy to know about your strongest subject :) – SHALINI CHAUHAN

Math is fun from hetal

Math, math is a subject that is also involved in your life for example - you go to cycle and then you measure how much you cycled through so technically u measure so you measure how much u cycled and that involves math so a girl for example from nursery she knows how to solve very hard questions of math so we call him/her gifted as math is hard and it's important so we call them GIFTED.

Good to see that you can relate it to daily life :) – SHALINI CHAUHAN

I am feeling very nice and while I am studying I feel that I am studying in my school. My teacher Shalini ma'am is sometime asking questions in chats and telling to give answer fast which creates interest within me.

Lovely! – SHALINI CHAUHAN
